ELECTION PETITIONS.

By Order His Excellency THE GOVERNOR OF MADRAS.

Electio Petition No. 1 of 1923.

V. S. Mohammed Ibrahim Petitioner,
1. Abbas Ali Khan Sahib and 2. A. P. Sayid Ibrahim Respondents.

(Election petition put in under Rule 21 of the Electoral Rules.)

1. V. S. Mohammed Ibrahim, son of Shaik Mohideen Razvi, Mohammedan, tenant, aged about 43, residing at Panchur, Trichinopoly, is the petitioner.

The address for service is that of his vakil M.R.Sr. A. C. Krishnamoorti Appangar, B.A., LL., Pillay Vay, Cantonment, Trichinopoly.

2. Abbas Ali Khan Sahib, son of Khan Bahadur Kadir Nawaz Khan Sahib, Mohammedan, aged about 34, Barrister, practising at Madras, is the first respondent.

3. Khan Sahib A. P. Sayid Ibrahim, son of Pichay Ibrahim Palanis, Mohammedan, aged about 35, salikah merchant, Tenkumary, Trichinopoly, is the second respondent.

4. The petitioner and the two respondents were candidates for the Madras Legislative Council at the election held on the 21st of October 1922 for the Mohammedan Union Constituency of the towns of Madras, Trichinopoly and Srirangam.

5. The petitioner submits that as per declaration of the returning officer Mr. Abbas Ali Khan Sahib is said to have obtained 492 votes while only 490 votes have been counted for the petitioner and 384 for the second respondent. As per this return Mr. Abbas Ali Khan Sahib has been declared elected by the returning officer by a majority of 12 votes over the petitioner.

6. Certain irregularities occurred at the election, and at the counting of votes which have contributed to the success of the first respondent and a few of the irregularities are set down here below.

7. At the 15th ward of the Trichinopoly municipality were stationed polling and presiding officers who did not correctly understand their duties. They issued not to the voters who asked for ballot papers both the ballot paper proper (viz. the covered) and the counterfoil, without severing the counterfoils and keeping them to themselves before issuing the ballot paper proper.

8. The lady polling officer who presumably was here instructed in this manner recorded the serial number of the votes on the counterfoil and without taking care to tear off the counterfoils from the ballot paper before issue either issued the whole paper to the voter for marking the vote or in the case of the less educated voters herself marked the vote in accordance with the instructions issued to polling officers under Regulation 2c and directed the voters to put into the box the voting paper as issued by her. This may have happened in other wards as well.

9. The returning officer, the Collector of Trichinopoly, who was not particularly lucky in the selection of the polling and presiding officers refused to treat as valid about twenty votes recorded in favour of the petitioner on the only ground that the ballot papers whereon the vote was recorded had not been torn off the counterfoils and that presumably the secrecy of the ballot had been affected.

10. With respect to the incorporated notice the rule that was observed at the election was that the marking of an incorporated voter's ballot paper was done by the presiding officer at his own table and in the presence of the candidates and their polling agents, and it will thus be seen that with respect to the legitimate and otherwise incorporated voters there is no secrecy of ballot maintained in law.

11. Again, the rule that a ballot paper shall be rejected if it bears any mark by which the elector can be identified cannot make the votes returned to above invalid for the reason that the counterfoil in the ballot paper and that nothing appears on the same by which the voter can be identified.

12. It is respectfully submitted that the rejection of those votes recorded in favour of the petitioner is illegal under law for the reason that the candidates ought not to be prejudiced by the indulgence of a rule by the polling or presiding officer.

13. It is submitted that the secrecy of the ballot has not been injured in any way as the counting is done only in the presence of the candidates and their representatives with at least as much secrecy as is observed at the election by unincorporated voters.

14. Again, in the same 15th ward of the Trichinopoly municipality the polling officer got some of the incorporated voters to put their thumb impression on the covered (ballot paper)

with the ink supplied thereto. The petitioner undertakes that two such votes have been lost to him by the neglect of them by the returning officer.

15. The petitioner is informed that some few persons whose names are set out in Schedule A to this petition and who were dead before the date of poll, have somehow voted at the election on 31st October 1923 for the respondent.

16. The petitioner is also informed that the Returning officer finished counting and informally declared the result of the poll to be 493, 497 and 304 for the petitioner and the respondents respectively. After the candidates and their agents had left his office, he added (under Regulation 29) about five votes of the polling agents of the 1st respondent. This, it is submitted, could not be done under law.

17. It is further understood that some of the polling agents who took out certificates from the Returning officer permitting them under Regulation 29 to vote at polling stations different from those where they were registered as voters have voted in the Malacca Municipality. It is therefore necessary to compare and find out if false procurations and double polling have not been done by the polling agents of the respondent.

18. The petitioner is informed that three treated votes have been recorded in favour of the petitioner and that he also to be added in favour of the petitioner.

19. If the votes thus improperly recorded and counted in favour of the first respondent, were deducted from the total of the votes obtained by that respondent and if the votes improperly rejected and those treated in favour of the petitioner were added to those already counted in favour of the petitioner, the result will be that the petitioner has secured a clear majority of votes over the respondent.

20. It will thus be seen that the result of the election has been materially affected by the rejection of proper votes and by the non-compliance with the provisions and regulations and by reason of the prosecution complained of in paragraph 17 above.

21. It is therefore prayed—

(a) that the election of the returned candidate, Mr. Abbas Ali Khan Sahib, be declared void.

(b) that the petitioner be declared duly elected, and

(c) that pending decision of this petition the first respondent be restrained from exercising any of the functions of a member of the Legislative Council.

Dated this 14th day of November 1923.

(P.O. No. under section 72-A and 122-A of the Government of India Act of 1913, and Rule 12 of the Madras Electrical Rules.)

The female petiole of *Exochus* *Perizonius*, sp. n., High Coast Terr., ages 10, India (Orissa). Petiole, resting in San Thomas High Road, Hyderabad, India. (The active for workers of all colonies and persons in care of F.R. Vek, sp. n., sp. n., sp. n.)

That your patriotism was duly manifested and stood for election to the Madras Legislative Council, by the Indian Christian Educators of Bangalore and Trichinopoly.

5-That your petition was opened by the respondent, a Roman Catholic, Indian Christian, residing at Lohjodga, Taluqa in Kharvelly District. [The address for service of all notices to persons is the same.]

5. That the said respondent was put forward as a candidate by the Foreign Jewish Mission, having its headquarters at Trichinopoly, and having an organization operating all over the Bombay district, and as a considerable amount in Tinianville.

4. That about 80 per cent of the voters in Kansas district are Roman Catholics by religion, under the jurisdiction of the Society of Jesus.

3. That for the sole reason that the petitioner is a Protestant, the said Joint Mission set up is aimed to run the Roman Catholic candidate, and to give him every possible support in the election.

8. That it was openly stated and declared that the respondent had the strong support of the Jesuit Mission, and that all Catholics were in duty bound to vote for him.

7. That the Jewish Mission, with powerful organization intended for religious purposes was, for the time being, converted into a political agency, operating everywhere for the second point.

8. That sermons were preached from the altar exhorting the voters to vote for the independent, and seeking—in some places—disparaging remarks about your position, alleging that it would be useful to vote for your opponents.

4. That the said Jerrik Medina, joyful of the success by these means alone, sent priests to run every polling booth, except a few important ones and there used all their influence to see that the votes were given in the manner he wished.

10. That in some places, the voters were all gathered in the church, and other places and there were to take an oath to vote for the respondent, and there was in charge of the outsiders in the voting booth.

21. That in other places, the value was threatened by the profits with Reconversion and withholding of the assessments if they voted for such resistance.

22. That the said Jacob Niles, by such evil means and methods threatened the voters and induced and attempted to induce them to believe that if they voted for your petition, they would be rendered objects of Divine displeasure and eternal misery.

15. That the said Jewish Mission, through its agents, in almost every village, acted as agents of the respondent and did the various acts mentioned above, with his full knowledge and acquiescence, and your petitioner states that on account of the said conspiracy and such instruments and other things acted by the said Jewish Mission, the alien was not a free citizen and it was unlawful to allow the alien to reside in the United States.

14. That your petitioners further state that he secured 1,038 votes at the election whereas the respondent secured 1,676 votes, of which about a 1,000 votes were from Diamond district alone entirely secured by the under influence of Catholics and other independents by the Catholic clergy upon the merit of Catholic votes.

35. That your petitioner further states that the clothes of the respondent has been soiled, stained and materially affected by a private and confidential letter addressed by the respondent to the Bureau Catholic Women, Catholics and Mothers expressing the sentiments of the parties and publisher thereof and that therefore the said clothes be sold.

16. Your petition states that the result of the election was materially influenced by a direct bribe with the knowledge and consent of the respondent regarding that your petitioners were obliged to vote the election and warning them against being influenced by the letter that your petitioners are likely to vote of each other.

Wherefore it is prayed that your Excellency will be pleased to direct an inquiry into the above allegations, to declare the election to be void, and then declare Justice.

1. (a) *Flattening with cuttings.*—(1) Use dry stick shavings not less than 3 inches and measuring not less than 1" \times 4" and to be flattened to 3/4" or very held at intervals of 1" \times 4". After the sticks are put in the hole should be pulled rapidly with care, so that the mole may not be exposed.

(15) When the stick is worked over to expose these sticks should not be put in the racks thus leaving them exposed. In such cases it should be properly put in so that no part of the stick under the two surfaces is exposed.

ca. This chapter should be completed before 15th January 1994.

(2) *Plowing with double*—1. Holes measuring 8" in diameter and 1' 2" deep are to be made at intervals of 4' 6" or 7 yrs square, where thickness of double thickness are ordered to be planted 1/2" to be set in at intervals of 8' 6" or 14 yrs square.

5. Clumps of grass seed are to be dug up with care with the place pointed out by the River Conservancy Division to be planted in those holes with their roots at least one foot below the surface.

3. The holes to be then filled up with 4 in. of good soft earth having an admixture of fine sand.

4. Into each hole is to be poured 1 gal full of water so that the earth may settle well and good without any crop like lucerne are to be made round each plant to reserve and hold a pot of water.

8. These Shadblows are to be planted six rows or six not so firm borders in the course of the season, the Shadblow planting to be finished before 16th February 1924.

g. Watering should be done properly so that the water may not form a pit by the side of the tree, due to the water being poured in one place only.

7. Wetting should be done daily for the first ten days, alternately for the next 20 days, and once in three days for the next three months.

3. When the soil is hard and water poured in joints does not run, a line cut is to be made to make the surface while water is being poured, so that the water may sink to the base.

15. If the height is not satisfactory and the plantation is not in a healthy condition waiting

(1) If it is found that the glass-worker is not working properly, working will be done departmentally.

In case of emergency, apply the maximum force to bring to the surface the broken spring. (b) *Preparation of handles*—The handles are prepared by driving with the spring a 1/2-inch diameter iron nail. If the handles are split by careless handling, the glass bottles will make good, with handles of the same shape. The walls between two rows of glass bottles and continuously should be 4 feet and when ordered sparsely 4 feet.

2. The signs are to be properly related and 11-wire only signs, and 3-wire horizontal signs are to be used. If the sequence is related properly, the place-warrior will not be paid the value for

making three ropes. Where wire ropes are supplied experimentally, the cost of rope not supplied by the piler-owner will be deducted. Rate should be quoted for the following:

4. This work should be finished before 18th May 1974.

IV. *Barbed-reinforcement*. On level ground 5 strings of double-twisted wire rope sufficiently long to securely tie the rollers are to be stretched at intervals of one foot in parallel lines on the ground

and over 1000 lb. leaflets of vicia grown 8" diameter are to be spread in two layers, the stems being placed differently in the second layer. Over this 4 ft. of fine earth is to be spread evenly, the whole thing
